Tower 6th generation Intel Desktop computer

Features of Tower 6th Gen INTEL Desktop

- Use the best genuine parts
- Full support of MS Windows OS
- High strength for perfect electromagnetic Interception Case adoption
- Enough internal space to expand performance

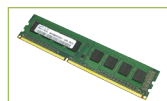

6th Gen Intel Core Processor

Enhanced graphics performance with the latest 6th generation Intel Core processor Powerful multitasking

Improved performance and low power

Lower power consumption compared to 5th generation CPU and DDR3 memory Speed up the latest products

Apply the latest DDR4 memory

Applying the latest DDR4 memory with low power and high performance compared to DDR3 Supports pleasant user environment

USB 3.0 native support

Up to 10x faster transfer rate and higher efficiency than USB 2.0 Standard provides enhanced data safety

Outstanding performance of Windows

Provides superior speed improvement compared to existing Windows and easier and more convenient UI

Next-generation storage SSD

Equipped with SSD which is much faster than HDD, system speed and improve faith and stability
